advertisement, JavaScript files; executing the JavaScript file; and displaying web

page through the web browser);

-   a first internet server which includes a web page that includes an advertising macro

tag (Landsman, col.11, lines 38-41; and fig.1B, box 13; web site (contents) server 13

which includes a web page that includes an advertising tag);

-   a second internet server which includes a JavaScript file (Landsman, col.11, lines 38-

41; col.16, lines 53-57; and fig. 1B, box 15; JavaScript file is stored on agent server

(distribution server));

-   an advertisement server which provides advertisements in response to links from said

browser (Landsman, abstract; and fig.1B, box 20 and communication 18)

-   said macro tag including a link to said second internet server (Landsman, col.11, lines

38-41; and fig.1B, box 45; advertising tag references to the JavaScript file "loaded.js"

which is stored on the distribute server "http://unicast_ad_server.com");

-   said JavaScript file including a link to said advertisement server, whereby said

JavaScript file is executed and an advertisement is displayed each time said browser

accesses said web page (Landsman, col.9, line 62 – col.10, line 9; col.11, line 32 –

col.12, line 31; col.17, line 50 – col.18, line 47; col.19, line 61 – col.20, line 14; and

correspond figures; Landsman teaches executing the JavaScript file to instantiate an

agent implement Java applet at client browser to download advertising files from a

third-party advertising server; and subsequently displaying and playing advertising

files through the browser in response to a user click-stream. Landsman teaches

advertisement tag 40 has two components. First component 42 is a reference to a
